

Industrial Visit to Gurukul Logistics & Cargo Center

Event Report

Event Name: Industrial Visit to Gurukul Logistics & Cargo Center	Event Date: 8 th Apr 2023
Faculty Coordinators: Mr. Deepanshu Gupta, Dr. Kriti Gulati & Dr. Imad Ali	Event Timings: 10:00 AM – 5:00 PM
Number of Participants: 40	Venue: Cargo Center IGI Airport Terminal-3

Expected Outcome

- To gain a comprehensive understanding of international freight forwarding, cargo handling, packing, and other details related to logistics.
- Deep understanding of international logistics, including freight forwarding and cargo handling

Purpose of the event:-

- Knowledge of warehouse management, including in-transit warehouse operations and proper handling of goods.
- Insights into the functioning of the e-commerce industry.

Detailed Report:-

The industrial visit was organized at Gurukul Logistics, located at IGI Airport Terminal 3. The visit aimed to provide insights into the processes involved in international freight forwarding. The event commenced with an introduction to Gurukul Logistics, which was established in 2019. The organization focuses on developing professionals with practical skills in the logistics industry. Within a short period, Gurukul Logistics has successfully trained numerous batches of logistics professionals.

Following the introduction session, Mr. Captain, an ex-Indian Army officer and the main trainer at Gurukul Logistics, conducted the second session. He provided a detailed explanation of international logistics, including how e-commerce companies operate and the intricacies of handling dangerous cargo, such as chemicals and reactive elements.

The third session was led by Mr. Yash Sharma, an ex-Indian Air Force officer and the head of Skyline Logistics. Mr. Sharma also took us on a guided tour of the warehouse. During the warehouse visit, students learned about various aspects, including the functioning of staging machines, types of pallets used, safety measures to be followed while working in the warehouse, and the processes of loading and unloading goods.

Learning Outcomes:-

- Understanding of International logistics.
- Knowledge of warehouse management.
