Detailed Report:

The National Summit on Cooperatives was held in New Delhi, collaboratively organized by the PHD Chamber of Commerce and Industry (PHDCCI) and the Ministry of Cooperation, Government of India. The summit, themed "Innovating Cooperative Models for the 21st Century," focused on the 54 new initiatives introduced by the Ministry of Cooperation (MoC).

The event commenced with a keynote address highlighting the transformative potential of digitization in cooperative models. Speakers emphasized the necessity of integrating digital tools to enhance efficiency and transparency within cooperatives. This segment was particularly

insightful, shedding light on how technology can revolutionize traditional cooperative frameworks.

A significant portion of the summit was dedicated to discussing sustainable development within the cooperative sector. Experts outlined strategies for ensuring long-term viability and environmental responsibility, aligning with global sustainability goals. The presentations on this topic were well-received, providing attendees with a holistic view of sustainable practices.

The summit also provided a comprehensive overview of the 54 initiatives by the MoC. These initiatives aim to enhance cooperative effectiveness through new policies and strategies. Attendees gained a deep understanding of these initiatives, which are poised to drive significant advancements in the cooperative sector.

The event underscored the Cooperative Mission's goals of social, financial, digital, and livelihood inclusion. This aligns with the broader vision of fostering inclusive growth and development. The networking opportunities were invaluable, allowing participants to connect with industry leaders and peers, facilitating the exchange of innovative ideas.

Learning Outcomes

Overall, the summit was a resounding success, equipping attendees with the knowledge and inspiration to drive forward-thinking changes in the cooperative sector. It reinforced the critical role of cooperatives in achieving inclusive growth and sustainability.
